Eco friendly : Our finished French doors and windows are just right substitutes for wood, by using galvanized steel instead of cutting trees for wood, we save environment, that's why doors are eco friendly.

Cost effective : As compared to wood/aluminum cost of these doors is very reasonable which meets customer estimated price. Also it saves wooden polish cost as compared.

Maintenance free : Compared to sliding doors sliding pulley, dust accumulation in track, rusting problems are zero in French doors.

Safety with Beauty : For sliding doors & windows we have to use another grill for safety measures but here safety & beauty maintains by using high finished bright bars inbuilt in frame with excellent designs.

Wide Opening : In sliding doors & windows we get 50% to 70% wide opening but in French patterns we get 100% wide opening which fulfill our light, air & ventilation requirements.

Feel Secure : We offer safety accessories like hand drops, tower bolt, window stay, manual locking provisions etc. These provisions are not found in sliding mechanism.

Colour Choice : Usually we offer ivory & black colour powder coating for our French doors, but for large orders as per customer choice we can use another colour.

Fire Resistance : Steel material is non-combustive and does not cause, support or enhance the natural development of fire.
